Danny / Phil,
There are also mechanical and electrical SCIF details on sheets M0503 and E0503. These show requirements for any ducts, pipes, or conduit going through the secure room walls.

Jareb

Thanks Tom. I was trying to assist Philip, and got frustrated looking around. Thanks for the quick reply. Will wait to hear from FERC if a quick call would help them.

Philip,
Please see email from P+W below. Let me know if you want a quick call with Jeremy present with P+W to answer specific questions you may have.

Thanks

> Afternoon Danny,
> The SCIF or secure room information is not found on drawing or within a specific specification section. The initial requirements that were provided DoE can be found within Appendix E within the volume II of the specifications. Additionally the latter communicated requirements for partition, electrical and acoustical are embedded within the secure room: partition, mechanical, and electrical plans. They in turn reference the scheduled partition/door assemblies, requirements and details. Let me know if we need to have a quick call to discuss/review.

Chris/Tom,
From the specs that was provided together with the bid/permit set, can you please point me to what section the SCIFF is mentioned.

Thanks,

Jeremy Parmer, our Senior Security Specialist is looking for the specification of the SCIFF and all things security, this is the only document I have.

Could I get the other information forwarded ASAP?

Thanks

Phil
